

# Global Terrorism Database

Evolution of Terrorism  
by Starks

A black and white photograph showing a large, multi-story brick building, possibly a residential or institutional structure, with significant smoke rising from its upper floors. In the foreground, a large group of firefighters and emergency personnel are gathered, some using hoses and equipment. Several vintage cars and a fire truck are visible at the base of the building. The scene suggests a major fire or explosion, likely related to the historical context of terrorism discussed in the text.

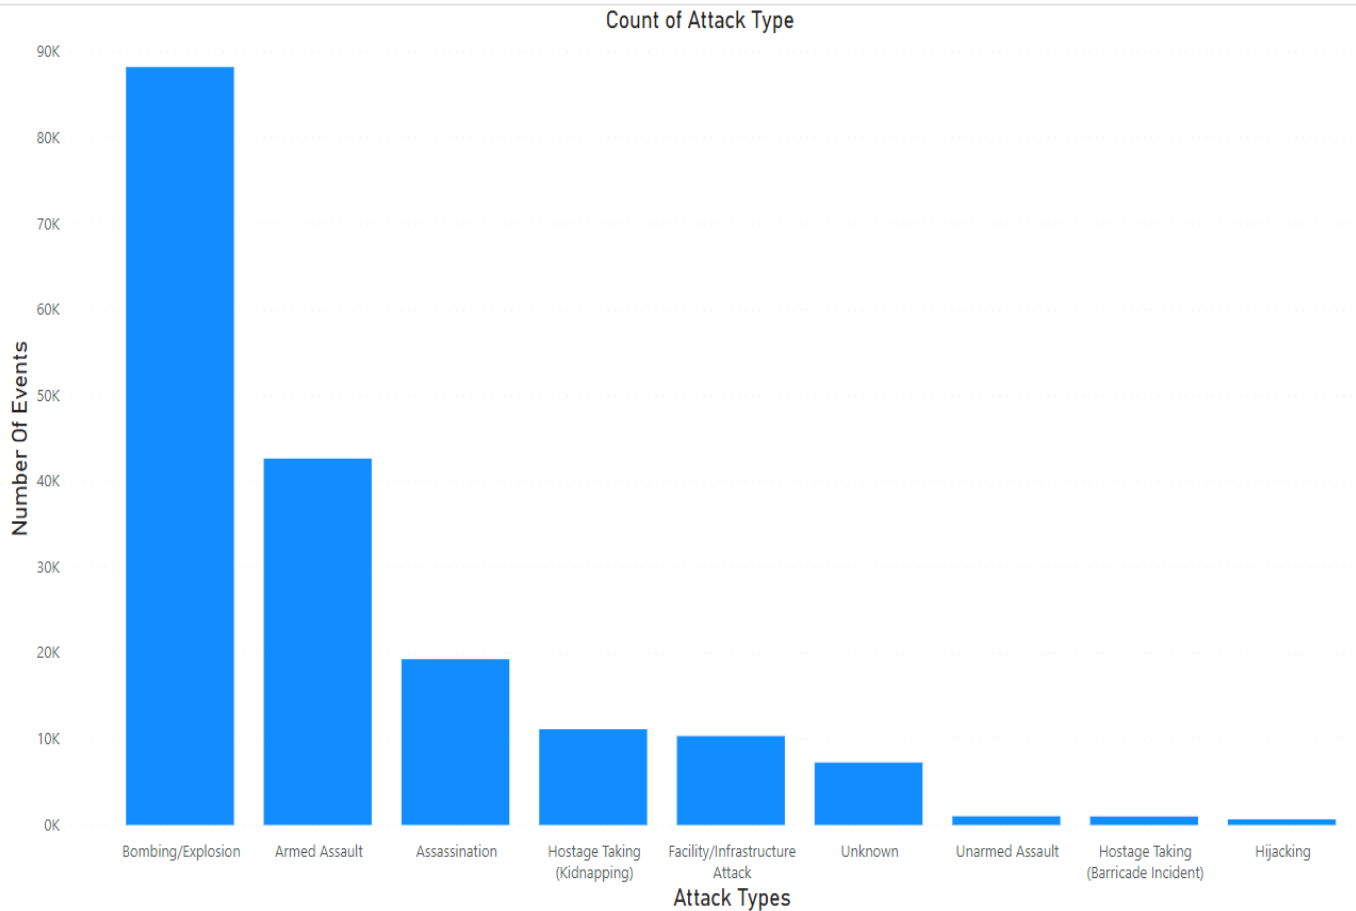

# TERRORISM

*"The threatened or actual use of illegal force and violence by a non-state actor to attain a political, economic, religious, or social goal through fear, coercion, or intimidation."*
